ENVIRONMENTALLY FRIENDLY PRODUCTS

Stuart Glendenning
Chairman

We are delighted to introduce our new Trade Catalogue for the 2027 season. This season has certainly been a challenging one. A positive start quickly made way for a chaotic middle part of the year. As Spring broke, conflict in the Middle East brought about the closure of the strait of Hormuz. Fuel prices and plastic raw material prices quickly spiked upwards. The impact is still being felt across businesses like ours which are heavily reliant on the petro chemical industry supply chain to manufacture the bulk of our product range. We have worked hard to minimise the impact to our customers, and we hope for a return to normality soon. Despite the turmoil, we have invested heavily in new tooling and new products for the coming year, and we are confident that you will find plenty to interest you in the pages ahead.

Mark Dedman
Sales Director

There are 16 new additions to our Propagation Ranges ensuring that we remain the largest supplier and manufacturer of propagation products. This includes four new Seed Tray Racks. The base models include 9 and 12 seed tray options, complimented by upgrade models featuring base water trays. We have also added five new cell tray sets containing 12, 18, 27, 36 and 60 cells plus additional / replacement cell packs for the trays.

The Garden Basics Range sees the addition of two Buckle Tree Ties measuring 46cm (18") and 61cm (24") with both available singly and in pairs. Professional Hanging Baskets with diameters of 33cm (13") and 41cm (16") are also new.

The Brooms & Brushes Range has seen a significant expansion with the addition of eleven new lines, meaning we now offer a total brushware range. Notably we have added three household brooms suitable for all hard surfaces. With the exception of the new Scrubbing Brush with Plastic Scraper, all the new items feature steel handles.

Following the success of our Downpipe Pot Holder, we are introducing three sizes of Wall Pot Holder. These offer more options to add colour to walls, fence/pergola posts, sheds or they can even be used indoors for house plants.

For POS support, we have added a new Sundries Multi Range Product Merchandiser, containing nine baskets suitable for displaying a multitude of products. Full details are on page 5. The merchandiser can be fully customised to your requirements. We can even tell you how many of a given product will fit in each basket. We can further personalise the unit by adding price cards printed to your requirements which slot into place at the front of the merchandiser.

You can easily spot all the new products as you explore the catalogue as all have been clearly marked as **NEW**

We have a brand new 3000 sq.ft. showroom available for trade visits

Our brand-new showroom was completed in December 2025 following the opening of our new warehouse earlier in the season.

We have already welcomed a host of trade visitors over this past year, and we are looking forward to welcoming more in the season ahead.

The new larger showroom showcases every product in our extensive range and is available for customer visits at any time of year.

As part of your visit, why not see British manufacturing at its best and take a guided tour of our manufacturing facility and a chance to see how our products are made, from raw materials to finished product.

There are also full boardroom facilities available for group visits, and the space is available for private use, should you wish to host your own meetings following your tour.

Why not book your visit either via your local agent, or directly via our sales office.

We look forward to welcoming you soon.

- 1.1 All contracts for the supply of goods by the Company will be subject to the following conditions to the exclusion of any addition, modification or variation thereof save such addition, modification or variation as shall be agreed in writing by the Company. Unless expressly accepted in writing by the Company any qualifications of these terms and conditions of sale or any conditions which may be contained in any written or printed document including any order form of the Buyer shall be deemed to be excluded from any contract arising between the Company and the Buyer.
- 1.2 It is agreed that any documents sent by the Purchaser to the Company which contain terms and conditions are sent by the Purchaser and received by the Company on the understanding that they have no legal effect and the Purchaser waives any rights which the Purchaser might otherwise have to rely on such conditions.
